

PCOR Charcoal Filter Installation Instructions

1. Remove the two screws, one on either side of the unit, detaching the grill from the microwave.
2. With one hand, gently pull down the front of the exhaust duct (a), and with the other hand slide the filter in (b).
3. Continue to slide the filter in, until it is completely inserted. It will lie flat.
4. Replace the grill and fasten it to the unit with the two screws on either side of the microwave.
