## KitchemAid ${ }^{\circledR}$ Hot Water Dispenser

PRODUCT MODEL NUMBER
KHWS160J

Electrical: A 120 -volt, $60 \mathrm{~Hz}, \mathrm{AC}-$ only 15 or 20 amp fused, grounded electrical supply is required. It is recommended that a separate circuit serving only your hot water dispenser be provided. Use an outlet that cannot be turned on/off by a switch.
Water supply requirements: If local codes permit, the hot water dispenser feed line should be connected to the cold water supply line using a saddle tapping valve.
Important: If local codes do not permit the use of saddle valves, special feed valves can be obtained from your local plumbing supply distributor. If a filter system is used, the water pressure to the dispenser should not drop below $20 \mathrm{psi}(138 \mathrm{kPa})$.
